## Technical Skills

---

**Languages :** JavaScript (ReactJS), HTML, CSS, Python

**Other Skills:** Video Editing, MsExcel, PowerPoint

## Experience/Projects

---

### Weather Application

*Front-End Developer*

- Developed a responsive weather application using HTML, CSS, and JavaScript, providing real-time weather updates for various cities.
- Integrated OpenWeatherMap API to fetch and display dynamic weather data, including temperature, humidity, wind speed, and weather conditions.
- Implemented search functionality allowing users to get weather data for any city by entering the city name.
- Enhanced user experience by displaying weather icons and using "Intl.DateTimeFormat" to format and display the date and time based on the user's location.

### Dynamic Web Application

*Front End Developer*

- **Languages and Technologies Used:** React.js, Bootstrap, CSS, JavaScript
- Designed and implemented reusable components such as Header, Footer, SideBar, CreatePost and PostList to ensure a modular and maintainable codebase.
- Implemented user input handling and form submission in the CreatePost component, allowing users to submit new posts with user IDs, titles, content, reactions, and hashtags.
- Enhanced user interaction by implementing clickable elements for navigation and post management (e.g., adding and deleting posts).

### Todo App

*Front-End Developer*

- **Languages and Technologies Used:** JavaScript, React, Bootstrap, CSS.
- Developed a fully functional Todo application using React, incorporating key components such as App, AppName, AddTodo, TodoItems and WelcomeMessage for a seamless user experience.
- Designed functionality to add and delete todo items dynamically, updating the state and re-rendering the list of items.
- Integrated user-friendly interfaces with Bootstrap for styling and React Icons for interactive buttons, enhancing the visual appeal and usability of the app.
- Implemented conditional rendering to display a welcome message when there are no todo items.

### Myntra Clone

*Front End Developer*

- **Languages and Technologies Used:** JavaScript, React, Bootstrap, CSS.
- Created a fully functional clone of the Myntra website, replicating its core features and design.
- Utilized JavaScript, React, CSS, and Bootstrap to build a responsive and interactive user interface, ensuring a seamless user experience across devices.
- Structured the application using React components for modularity and reusability, enhancing maintainability and scalability.
- Structured the application using React components for modularity and reusability, enhancing maintainability and scalability.

## Certificates

---

HTML , CSS and JavaScript(React.js)

Nov. 2023 – April 2024

Python

Dec. 2023

Artificial Intelligence

Dec. 2023

## Education

---

**S.K.M.U University**

*Bachelor of Arts in English Honors*

**July 2020 – Sept. 2023**

*Godda, Jharkhand*
